## ASUS LATEST PRODUCT REVIEW - UAE

5.0 ★★★★★

August, 2022  
#UXB402

“With a next-gen ScreenPad Plus and an unrivalled design, this is the ultimate OLED laptop.”

”

Gulf News

October, 2022  
#UX9702

“In the era of foldable displays, the Asus Zenbook T7 Fold OLED is one of the most refined.”

”

Gulf News

October, 2022  
#UX9702

“Ultimately, the name of the game with the Zenbook T7 Fold OLED is ultra-portability with a ground-breaking form factor.”

”

Khaleej Time

June, 2022  
#UXB402

“This is a laptop that every content creator should consider buying in 2022.”

”

Khaleej Time

August, 2022  
#UXB402

“The ASUS Zenbook Pro 14 Duo OLED is a great laptop for creators out there. It comes with a very useful second screen in the form of ScreenPad Plus along with its own ecosystem of apps. It also offers a stunning OLED display and very strong internals that can take up any creative job.”

Arabianreseller

August, 2022  
#UXB402

“If you are looking for a slim and light laptop with the performance that doesn't compromise, ASUS Zenbook Pro 14 Duo OLED is the one of the best laptops you can get in the market now.”

”

Gulf Business

October, 2022  
#UX9702

“ASUS Zenbook T7 Fold, the laptop that breaks tradition and bends expectations.”

”

# IN SEARCH OF INCREDIBLE

ASUS is passionate about technology and driven by innovation. We dream, we dare, and we strive to create an effortless and joyful digital life for everyone. We're always in search of incredible ideas and experiences, and we aspire to deliver the incredible in everything we do.

— Jonney Shih, ASUS Chairman

■ 15,000

employees worldwide

■ 5,000+

world-class R&D team

■ 65,565

awards won since 2001

■ 69,965

green certification in 2020 alone

■ 80

countries covered by the international warranty

ASUS is the No.1 consumer laptop brand in Asia-Pacific, and a top-three vendor of consumer laptops globally. We're also proud to be world's best-selling, most award-winning motherboard brand. The combined talent of 15,000 international employees, including a world-class R&D team of 5,000 engineers, has elevated ASUS to become one of Fortune magazine's World's Most Admired Companies in 2021.

## Incredible Stories

### Outperforming Competitors through 600 Days in Outer Space

R&K, a major supplier of computers and electronic equipment for aeronautical missions to outer space, provided MIR Space Station astronauts with two ASUS notebooks for their 600-day stint in space. "The ASUS notebooks never overheated like some of the devices made by other companies," said Russian cosmonaut Sergei Avdeev.

### First to Reach the Tallest Peak in Antarctica

On December 16, 2003, acclaimed mountaineers Shi Wang and Jian Liu embarked on an expedition to the summit of Mount Vinson — the tallest peak in Antarctica, where temperatures are known to drop below minus 100° F. The device they chose to take with them was an ASUS 5200N notebook.

### First to Reach the Top of Mount Everest

For a Mount Everest expedition, a mountaineering team selected a series of ASUS notebooks as their devices of choice. Expedition team leader, Captain Wang Yongfeng, took an ASUS notebook with him to the peak: At 8,848 meters above sea level, the ASUS notebook became the first in the world to reach the top of Mount Everest.

## Notable Media Coverage

### Laptop

**UX581 | 2019**  
The ScreenPad is a visually stunning element that, when paired with the 4K OLED display above, makes for a captivating scene. Second displays on laptops aren't a new concept: Asus had quite a library of dual screens in the early 2000s. However, it's currently the only company that does the concept justice.

### PCWorld

**UX581 | 2019**  
If you're looking for one laptop to rule them all or one that stands out from the rest in a big way, the Zenbook Pro Duo might just be what you're looking for.

### TECH CRITTER

**UX581 | 2019**  
It brings a whole new user experience to the table where traditionally we are required to have an external display attached to the laptop. Now, everything is packed nicely in the chassis of a laptop that weighs just under 2.5 kg.

### GAMERBRAVES

**UX581 | 2019**  
Opening the lid, the first thing you'll notice will most likely be the secondary touchscreen. Your creativity and productivity can be pushed to the next level with this ultimate efficiency.

### Hi-Tech Century

**UX334/434/534 | 2019**  
The biggest difference of course are the size of their displays but all of them have thinner bezels than ever before that Asus has dubbed as 'NanoEdge' panels which maximize screen size.

### TECH2 TOUCH

**UX334/434/534 | 2019**  
It is an innovative laptop. If you want to have a ultra compact laptop with latest technology and unique features, then Zenbook 14 UX434F is one of the best option.

# ENSURING BEST-QUALITY LAPTOPS

Durability is a hallmark of ASUS design. We strive to create devices that exceed expectations in any environment. That's why ASUS laptops undergo a rigorous torture-test regime, including military-grade testing to the demanding U.S. MIL-STD 810H standard\*. We perform up to 15 separate tests in range of environmental conditions. So whether you're an urban explorer or an arctic trailblazer, you can rest assured your laptop is ready for anything, anywhere.

Shock Test

Drop Test

Vibration Test

Temperature Test

Altitude Test

Humidity Test

Accelerated Life Test

EMI Test

Acoustic Test

Keyboard Test

Hinge Test

Port Test

Twist Test

Panel Pressure Test

Touch Panel Precision Test

## Reliability Tests

ASUS laptops are tested to be tough enough to keep working after sudden impacts, so there's no need to worry about everyday knocks and bumps.

### SHOCK TEST

Shock tests ensure a laptop can withstand unexpected impacts such as accidental bumps, or jarring movements during shipping.

### DROP TEST

Drop tests check the resistance of the chassis and internal components to damage from unexpected drops.

### VIBRATION TEST

Multidirectional 5-500 Hz physical vibration tests ensure that the chassis and internal components can withstand even the most extreme travel conditions.

Microsoft Edge makes it easier.

\* Select Zenbook and Expert series models are tested according to the demanding MIL-STD 810H military-grade standards to ensure maximum reliability and durability. The number of tests passed by each laptop model is shown in the individual model's specifications sheet.

# Durability Tests

ASUS laptops are built to last, even after continuous daily use. All units are put through extreme tests to ensure the display, hinge, structure and ports are built to last.

## KEYBOARD TEST

To ensure ultimate keyboard durability, specially designed ASUS robots test individual keys with millions of key strokes.

## HINGE TEST

Vigorous testing with over 20,000 open/close cycles helps ensure exceptional hinge strength.

## TEMPERATURE TEST

Extremely high- or low-temperature tests ensure that the laptop functions consistently in any temperature.

## ALTITUDE TEST

This tests the ability to survive extremes of altitude encountered in shipping by air or air travel.

## TWIST TEST

50,000 twist tests confirm that the chassis is strong enough to retain structural integrity when uneven pressure is applied.

## PORT TEST

5,000 insertion tests ensure port durability.

## HUMIDITY TEST

This tests the ability to operate in hot, humid environments for ten 24-hour cycles.

## ACCELERATED LIFE TEST

These tests simulate the effects of long-term operation.

## PANEL PRESSURE TEST

25-kilogram resistance tests ensure that the display can endure unexpected bumps or pressure.

## TOUCH PANEL PRECISION TEST

This test checks the responsiveness and accuracy of the touchscreen for a natural touch and writing experiences with ASUS Pen.

## EMI TEST

This ensures that ASUS laptops perform well in internal or external electromagnetic fields.

## ACOUSTIC TEST

Laptops undergo fan, hard drive, and power-supply noise tests to ensure the quietest performance possible.

# 2 Year Perfect Warranty - Free Upgrade

## WHAT IS THE 2 YEAR PERFECT WARRANTY?

- Accidental damage warranty within the UAE.
- 2 Year International Warranty in more than 80 countries.
- Free pick-up and return service within the UAE.

# 2 Year International Warranty

- 2 Year International Warranty in more than 80 countries
- Free pick-up and return service within UAE

Did you know that ASUS offers a 2 year International Warranty that's absolutely FREE? Some vendors claim to give a 3 year warranty, but it's actually only a 1-year labor & parts warranty plus 2 year free labor. That means after the 1 year warranty has expired, you still have to pay the cost of spare parts for repairs!

We're confident in the quality and durability of our products, so we provide a 2 year International Warranty more than 80 countries worldwide for ASUS laptop.

# EXPLORE ASUS EXCLUSIVE TECHNOLOGY

## Amazing True-to-Life Colors

ASUS OLED display laptops come with a best-in-class color gamut. They reproduce colors with superb real-life accuracy for professional-grade visuals, and offer ultrafast response times and refresh rates, making them perfect for professional and creative work, or anyone who simply wants to enjoy the very best color fidelity and motion clarity.

OLED displays, due to the nature of the special organic light-emitting compounds they use, can reduce harmful blue light by up to 70% compared to LCD displays, making them extra gentle on your eyes to reduce the risk of retinal damage.

## 5 reasons for choosing ASUS OLED Laptops

100% DCI-P3 best-in-class color gamut	70% less harmful blue light	120Hz / 0.2ms ultimate motion clarity	Clearer images at any brightness	DisplayHDR™ True Black 500 / 600
Vivid displays for precise creativity, colorwork and vibrant, visual entertainment.	With lower harmful blue-light levels, OLED offers better eye care and sleep quality.	Blur-free action scenes in movies and games, with ultra-smooth text scrolling.	Rich colors are maintained even at low brightness levels.	The deep blacks allow you to see previously unseen details in dark movie scenes.

## 1 Ultimate professional-grade colors

ASUS PANTONE® Validated OLED laptops deliver exceptionally detailed and realistic visuals, with a cinema-grade 100% DCI-P3 color gamut. This means that the colors reproduced on the display are richer and more vivid; it's ideal for color-intensive projects, but also enhances any kind of content.

**100%**  
DCI-P3 color gamut

**133%**  
sRGB color gamut

**Cinema-grade**  
industry standard

## 2 70% Less harmful blue light for eye comfort

Blue light is known to cause visual discomfort and disrupt sleep quality. However, due to the nature of the special organic lighting materials in an OLED display, ASUS OLED laptops emit 70% less harmful blue light, and they're also certified by TÜV Rheinland and SGS. More importantly, unlike traditional blue-light filters, shifting the spectrum means there's no need to compromise color accuracy.

### Premature aging of retina

Research has shown that in a five-year-old child's eyes, approximately 60% of the received blue-light emissions pass through to the retina, compared to only around 20% for a 60-year-old adult. With ASUS OLED displays, the significantly lower blue light levels mean better eye care for children.

Learn more at:  
<https://www.asus.com/content/dam/asus-research/products-research/2021/Blue-Light/Asus-Blue-Light-Paper.pdf>

### Harmful effects on retina cells

Cone cells are the cells in the eye's retina that enable color vision. In experiments conducted by the Gifu Pharmaceutical University in Japan, mice cone cells were subjected to red, green, and blue light sources. The survivability of the cone cells under blue light exposure dropped dramatically to 80% after 24 hours, while cone cells exposed to other colors retained around 100% survivability.

Learn more at:  
<https://www.asus.com/content/dam/asus-research/2021/Blue-Light/Asus-Blue-Light-Paper.pdf>

### Blue light disrupts sleep cycles

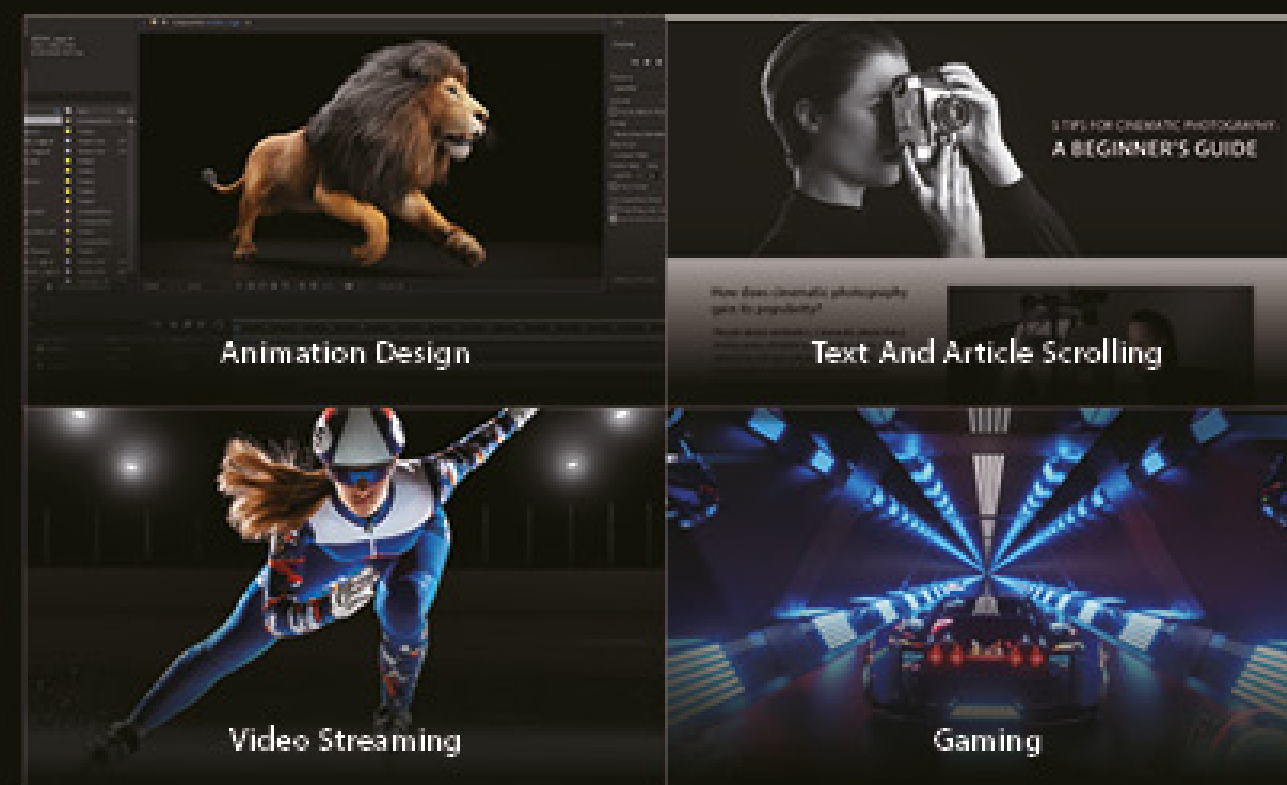

When it gets dark, your brain produces the hormone melatonin, which helps to maintain the correct scheduling of your daily sleep cycles. According to a Stanford University study the production of melatonin can be blocked by exposure to blue light at night, and potentially cause sleep disruption.

<https://agut.stanford.edu/course/2017/p240/lecture2>

## 3 World-leading motion clarity with up to 120Hz OLED display

The world's first 120Hz refresh rate, 0.2ms response time OLED laptop display gives you so much more on top of the best colors and quality for any content — gaming, creation, day-to-day work and media entertainment can all benefit from the smoother-than-ever experience. In a word, it's awesome!

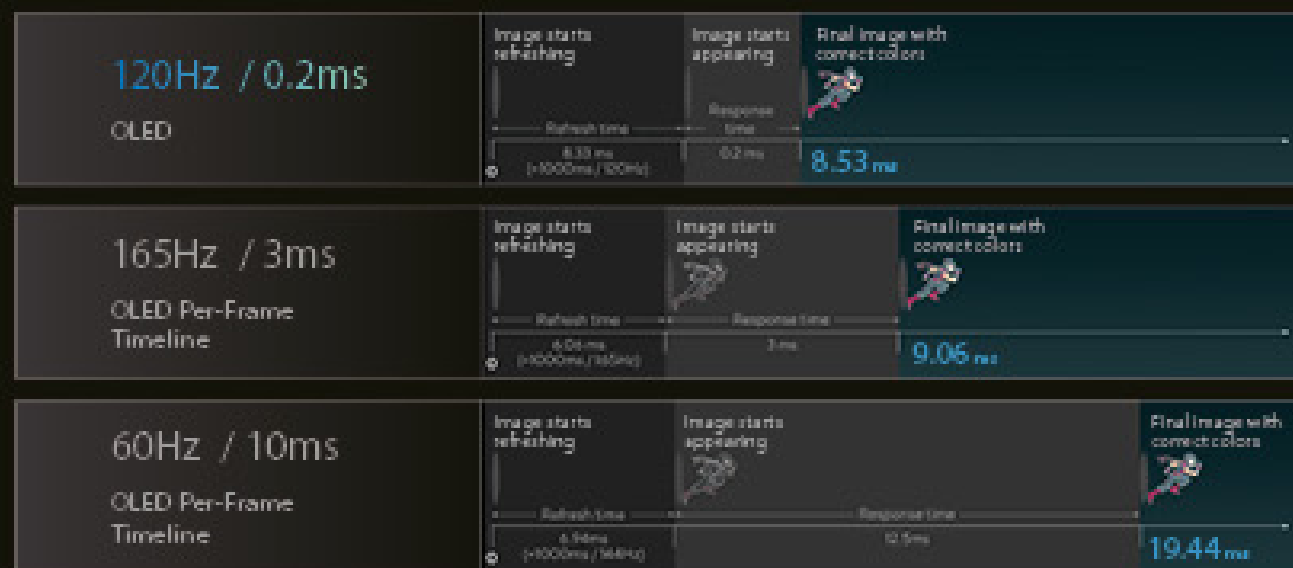

### Ultimate 120Hz / 0.2ms for exceptional motion clarity

The new premium ASUS OLED display with 120Hz refresh rate and 0.2ms pixel response time is incredibly smooth and clear. In fact, both surprisingly and counter-intuitively, the 120Hz / 0.2ms OLED display is faster than a 165Hz / 3ms LCD IPS display — because it reduces ghosting to an indiscernible level. Simply put, this means even fast-moving visuals are smoother and clearer than ever.

## How 120Hz / 0.2ms OLED display has better motion clarity than 165Hz / 3ms LCD display

It seems counterintuitive that a 120 Hz / 0.2 ms OLED display could outperform a 165 Hz / 3 ms LCD display rival — so how is this possible? Well, the LCD panel takes precisely 6.06 ms to refresh each frame, but it takes another 3 ms of response time to process the correct colors. That's a total of 9.06 ms to fully load the image. A 144 Hz / 12.5 ms LCD display takes even longer, at 19.44 ms to show the full, final frame of each image. But with its extreme-speed response, a 120 Hz / 0.2 ms OLED display takes just 8.5 ms to process the same — making it even faster than a 165 Hz / 3 ms LCD display.

## 4 Extreme Contrast, Astonishing Detail

ASUS OLED laptops reproduce blacks perfectly. An OLED pixel consists of three sub-pixels, each with its own self-generated illumination: a Full HD (1920x1080) display has 2,073,600 pixels, which means it has 6,220,800 self-illuminated sub-pixels, compared to just a few dozen LED backlights in a Full HD LCD display. When displaying black on an OLED display, the pixel is simply turned off to produce the darkest possible black. This enables extremely crisp and clear images even in the darkest scenes. You'll be surprised to see how many new details you'll spot in your favorite movies!

**1,000,000 : 1** contrast ratio  
**0.0005 nits** true black  
 Up to **600 nits** peak brightness<sup>1</sup>

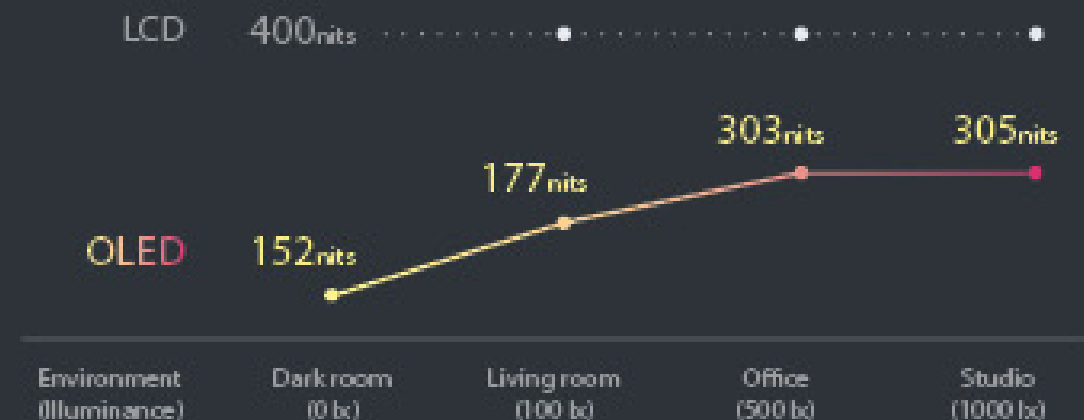

## 5 OLED has 1.6x color volume compared to LCD

On conventional LCD displays, detail and color quality usually decrease dramatically as the brightness is reduced. But ASUS OLED laptops are able to show great detail at lower brightness settings due to their high contrast and their ability to maintain a wide color gamut at low brightness. When calculating the 3D color volume — which adds illumination to the traditional 2D color gamut — ASUS OLED displays have about a 60% higher color volume, offering better color performance at any brightness level.

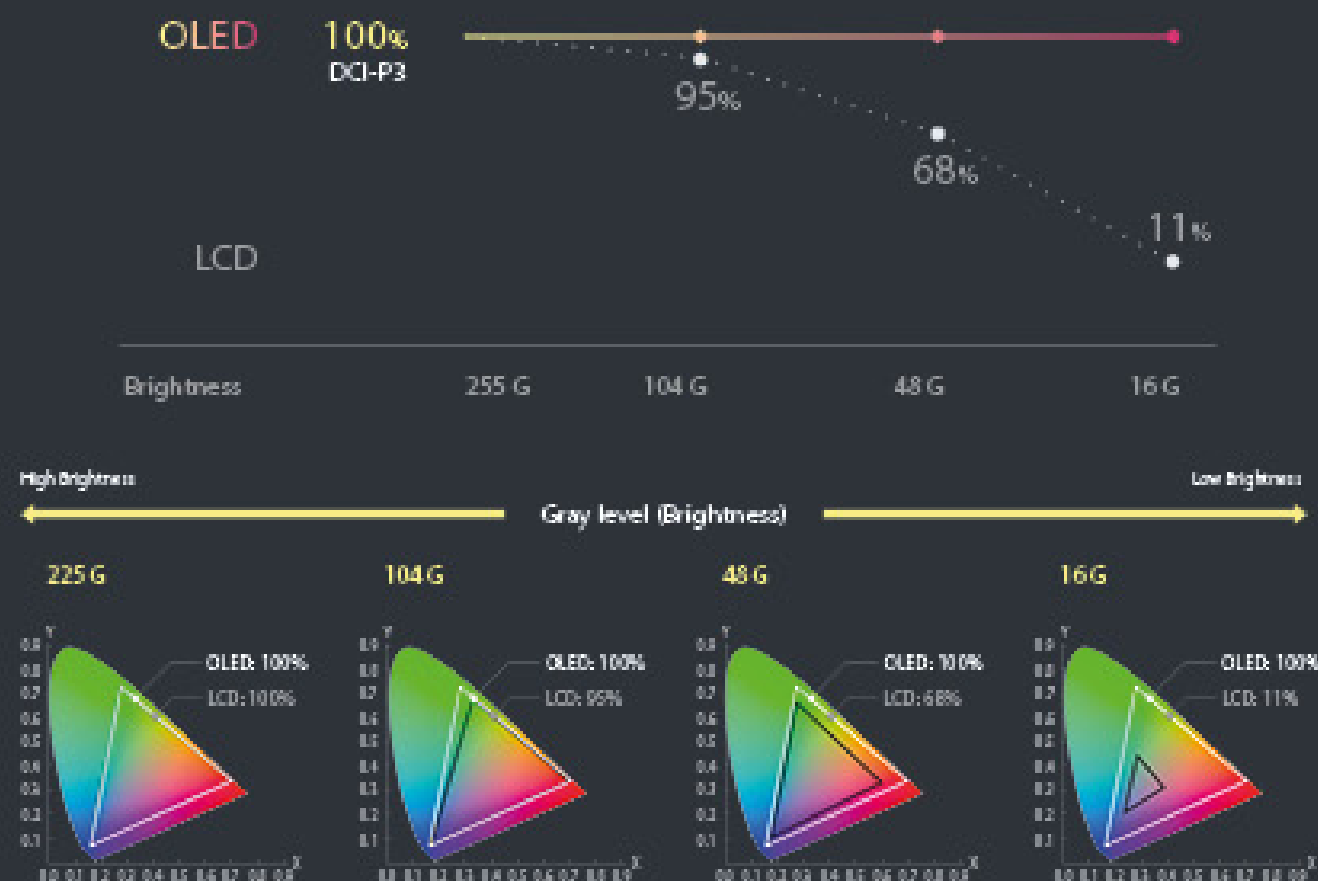

## OLED has much higher perceptual brightness

ASUS OLED laptops can maintain good color reproduction at any brightness level, so you can freely adjust the screen's brightness to suit your working environment, while still enjoying exceptionally vivid colors. For example, in the living room environment (usually illuminated at about 100 lux), you only need 177 nits brightness in an OLED display to produce the same clear image as 400 nits brightness in an LCD display. At the lower brightness levels needed on OLED displays, there's less harmful blue light emitted.

## Color-perfect at any brightness

ASUS OLED laptops maintain a 100% DCI-P3 color gamut at both high and low brightness levels, while on a standard LCD laptop the color gamut is reduced dramatically at low brightness levels. At a gray-level brightness of 16 G, LCD laptops only have an 11% DCI-P3 color gamut, while ASUS OLED laptops maintain a 100% DCI-P3 color gamut.

## High coverage of HDR standard

The industry HDR standard covers a huge range of brightness from 0.0005 nits — the lowest measurable level — up to 10,000 nits. The true blacks and high brightness possible with OLED displays give them a 75% coverage of the HDR standard, compared to about 46% for LCD displays.

## Exclusive Visual Fine-tune

### ASUS Splendid Technology

ASUS Splendid technology enhances the display by reproducing more-brilliant colors for visually stunning experience, whatever you're looking at! And you don't even have to lift a finger, as it works by automatically fine-tuning the display settings — including color temperature, contrast and brightness — to optimize any kind of image. The result is richer, deeper colors and stunning visuals whether you're watching movies, playing games or browsing through your photos.

#### Normal Mode

Default Normal Mode gives you see through ASUS's panel appears to be as close as how you see the something with your own real eyes.

#### Eye Care Mode

ASUS Eye Care mode could reduce the emissions of blue light by up to 30% so that your eyes are always protected when Eye Care mode is used.

#### Vivid Mode

In Vivid mode, we make carefully calculated adjustments to the color saturation of the images to make them look more vivid and vibrant.

#### Manual Mode

In Manual mode, you can easily adjust the color temperature to your taste, within a range of -50 to +50, using a simple slider control.

## Customizable color gamut for every need

On selected models, the display's color gamut can be quickly and easily switched for different tasks or preferences. On top of the ultravivid native color setting, choose sRGB for creating web content or browsing, DCI-P3 for cinema content, or Display P3 for movie-grade colors finessed to fit everyday viewing in the real world.

#### sRGB

Web content-creation standard.

#### DCI-P3

Cinema color standard.

#### Display-P3

Movie-grade colors adjusted to fit everyday viewing.

#### Native

Original OLED colors.

# Unprecedented Productivity

## Best budget laptops with pro-grade processor

Ever felt like your laptop just isn't quite fast enough to keep up with your workflow? ASUS now offers a wide range of laptops with pro-grade H-Series high performance CPUs, designed to double your productivity in a thin and light chassis. The latest Intel H-Series CPU makes all your tasks easier, whether they're office or personal, presentations or play. Powered by up to a 12th Gen Intel Core i7-12700H CPU with high speed RAM, alongside the ASUS IceCool cooling system, there's always plenty of power in reserve when the going gets tough.

The lineup ensures users have all the features they need to get it all done: long battery, blazing fast internet and connectivity speeds, as well as incredible performance, all in a good budget. Comparing to previous generation ASUS laptops, the new series is capable of being boosted up to a TDP (Thermal Design Power) of 45 watts, it's the fastest performing generation to date!

ASUS Laptop with 12th Gen Intel® Core™ i7-12700H	5345
ASUS Laptop with 12th Gen Intel® Core™ i5-12500H	4568
ASUS Laptop with 11th Gen Intel® Core™ i7-1165G7	2509

**2.1x**  
faster

Up to  
**Core™ i7-12700H**  
**12<sup>th</sup> Gen Intel® CPU**

Up to  
**97**  
IceBlades

Up to  
**2**  
heat pipes

**ASUS IceCool**  
thermal technology

Up to  
**45 W**  
CPU TDP

**<38 dBA**  
noise under Standard mode

To keep it cool in all situations, ASUS IceCool thermal technology ensures that the laptops would not overheat and affect performance. For example, Vivobook S 14X OLED uses upgraded 8 mm and 6 mm heat pipes, and an IceBlade fan that efficiently accelerates heat transfer. The 97-blade fan and impeller are made of a liquid-crystal polymer that means they're lighter and thinner than ordinary fans. In addition, the IceBlade fan also use a fluid-dynamics bearing that's quieter and has less vibration than an ordinary bearing. The end result is that the mighty CPU can run comfortably at a blistering 45 watts total TDP in Performance mode — with no throttling!

# Personal care

## ASUS Antibacterial Guard: 99% bacterial inhibition. Your health safeguarded.

The surface of any laptop harbors thousands of potentially harmful bacteria. To keep your laptop hygienic, it's protected by ASUS Antibacterial Guard — a surface treatment<sup>1</sup> that's applied on the most frequently touched laptop areas, including the keyboard, the touchpad (or ASUS NumberPad), the palm rest area and power button/fingerprint sensor. This hygiene technology ensures your laptop stays clean and sanitary, reducing the spread of potentially harmful bacteria via contact.

## ISO 22196-tested antibacterial protection.

The tests we perform adhere to ISO 22196<sup>2</sup>, which defines the measurement of antibacterial activity on plastics and other non-porous surfaces. As shown in the diagram below, an initial sample of 10,000 bacterial cells are applied to a Petri dish surface treated with ASUS Antibacterial Guard, leaving the one below untreated. After a 24-hour period, the bacterial cells within the upper Petri dish reduced to just 16. The same test, performed without the Antibacterial Guard treatment sees the count of bacterial cells grow to 28,000. This test proves ASUS Antibacterial Guard can restrict bacterial growth by more than 99%.

## Silver ions<sup>3</sup> prevent bacterial reproduction.

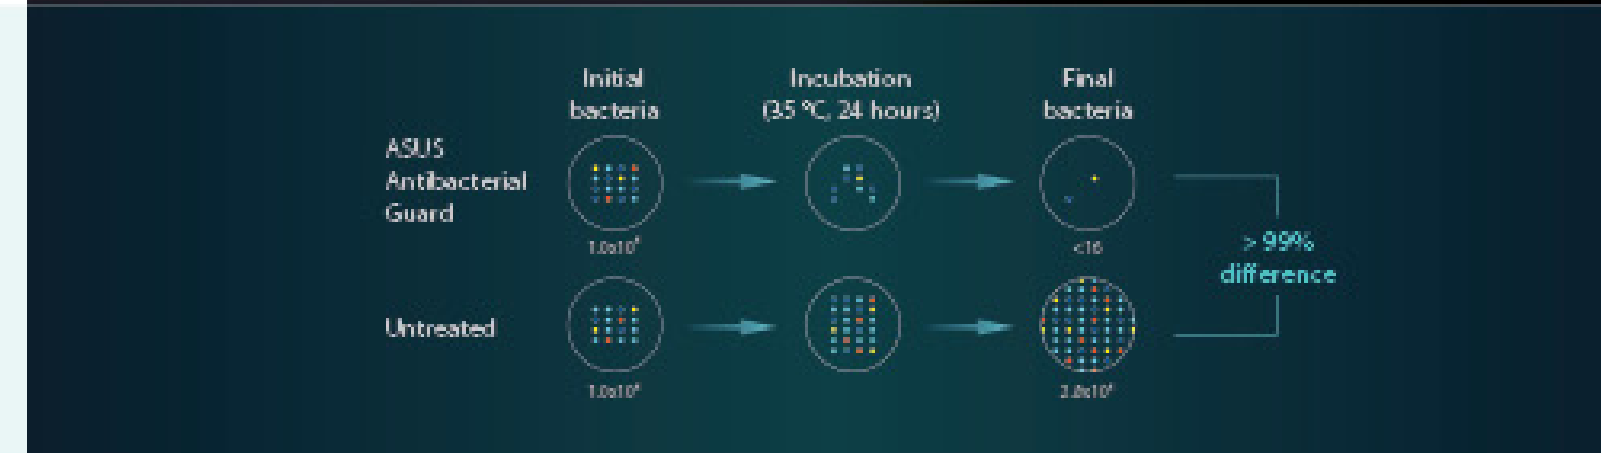

ASUS Antibacterial Guard has an inhibiting effect on almost all known bacteria. All bacteria can be classified by Gram staining into Gram positive or Gram negative, named after bacteriologist Hans Christian Gram. The ISO 22196 test<sup>2</sup> defines Staphylococcus and E. coli respectively as Gram positive and Gram negative. Many industries choose these two bacteria as test targets — and it is these that are tested against ASUS Antibacterial Guard.

## Silver ions<sup>3</sup> prevent bacterial reproduction.

The ASUS Antibacterial Guard treatment is durable enough for at least three years of normal usage<sup>4</sup>. Household cleaning products and agents such as alcohol wipes and soap water won't easily wear away the silver-ion surface treatment, ensuring ASUS Antibacterial Guard's long-lasting bacterial-inhibiting effect.

1. To identify which specific areas on your model are protected by ASUS Antibacterial Guard, please refer to the relevant product website for more in-depth information.  
2. Tested by an independent third-party laboratory according to the ISO 22196 standard (Measurement of antibacterial activity on plastics and other non-porous surfaces), using bacterial cultures that include Staphylococcus aureus and Escherichia coli, with an antibacterial activity result of  $1.6 \times 10^4$  compared to an untreated surface of  $2.8 \times 10^7$ . This indicates a 99% reduction in bacterial activity. See <https://www.iso.org/standard/69431.html>

3. Actual composition of ASUS Antibacterial Guard may vary.  
4. How long the protective effects of ASUS Antibacterial Guard were tested by ASUS on April 28, 2021, and follow the ISO 22196 method on our specially-treated test samples. The tests provide a simulation of three years of wear and tear, and include exposure to salt spray, thermal shock, and both alcohol and wipe tests. Actual effective antibacterial-protection period may vary depending on product configuration and usage.

# Ergonomic design

## Nuanced ASUS ErgoSense keyboard and touchpad

It's our mission at ASUS to elevate human interaction with technology to a higher and more intuitive level than ever before. The latest ASUS ErgoSense keyboard and touchpad are engineered to enable an unrivaled input experience that's in harmony with how you move, feel and touch. Your comfort is our highest priority. That's why the ErgoSense keyboard has an incredibly satisfying feel, with the optimum bounce and travel calculated with fine-tuned precision. Scrolling on our ErgoSense touchpad is just like touching silk. Its surface has a special low-friction coating that's also fingerprint resistant, keeping your work area as clean as new.

Experience the ErgoSense keyboard and touchpad, and you'll soon find yourself cruising effortlessly through your work.

### Full-sized standard desktop pitch keyboard

It's time to say hello to ErgoSense, and goodbye to cramped laptop keyboards! The full-size 19.05mm key pitch is the same as a desktop keyboard, so you can whizz through your work with superb typing comfort and accuracy.

### Dished key caps 0.2 mm

The 0.2 mm key-cap dish is designed to match the shape of your fingertips. The smooth-edged indent is carefully crafted for a comfortable yet precise feel, so your fingers are gently guided to the ideal contact point with the keys.

### Long key travel 1.4 mm

Good tactile feedback is important to let you know that your key press has been registered. The long 1.4 mm key travel lets you type without having to use too much force. And underneath the key, there's a rubber dome crafted by keyboard experts here at ASUS. It guarantees your click force is met with just the right tactile bump you need for a nice grip.

### Ultra-smooth touchpad

The hydrophobic coating applied to our touchpad has a high water-contact angle. This means the nanotech-like surface provides smoother feedback for every scrolling movement. It's like touching silk!

### Anti-fingerprint touchpad

We apply a high-end PVD anti-fingerprint coating that ensures excellent resistance to wear and tear. This coating also makes the surface really easy to clean. And even after more than 10,000 slides, the touchpad will still be as smooth as new.

# Optimal conferencing

## Superior sound experience with Smart Amplifier

### Smart Amplifier — 350% louder sound, zero distortion

The volume-enhancing, distortion-suppressing dual-channel smart amplifier is equipped with a powerful DSP chip that can drive the twin speakers at the maximum volume possible while preventing long-term damage to the sensitive speaker voice coils. Creating or listening to audio in your videos, movies, music or games has never sounded better!

### 350% louder sound

Our smart amplifier system uses a high-power amplifier that can increase speaker volume by up to 350%.

### More clarity

The smart amplifier helps to deliver clearer audio by boosting volume across the entire audio spectrum, not just at certain frequencies. This ensures crystal-clear highs and powerful bass for a superlative audio experience.

### Distortion-free

The smart amplifier's output is intelligently matched to the speaker's physical capabilities, fine-tuning the system across the entire spectrum to ensure distortion-free audio at any volume level. The result is a high-quality audio experience and reliable long-term operation.

## ASUS Two-Way AI Noise-Canceling Technology

With the increase in remote working and video conferences, we've introduced *ASUS Two-Way AI Noise-Canceling Technology* to ensure the best communications experience. This technology employs machine learning in order to isolate unwanted noise from human speech. The *AI Noise-Canceling Mic* feature in the *MyASUS* app can filter out ambient noise, and the *Multi-Presenter* mode normalizes all individual voices from different positions for optimum group conference-call quality. The *AI Noise-Canceling Speaker* feature filters out all ambient noise apart from human speech — so you'll hear what everyone else is saying.

## 3DNR Webcam

*3D Noise Reduction (3DNR) Technology* significantly upgrades the webcam image clarity for clearer conference calls. This technology is trained to consistently compare and analyze multiple frames, while implementing an image-strengthening algorithm to what the webcam captures. The result is the surprisingly lower image noise and much more natural skin tones, especially in darker environment.

# Unrivalled Mobility

## ASUS WiFi Master

ASUS offers a comprehensive range of wireless connectivity solutions. The *WiFi 6* in the laptops allows you to load online content in the blink of an eye, and it's made even better by the *ASUS-exclusive WiFi Master Technology*, which includes *ASUS WiFi RangeBoost*, *WiFi Stabilizer*, *WiFi SmartConnect*, and *TaskFirst*.

*WiFi RangeBoost* utilizes multi-antenna technology to expand your *WiFi* connectivity as well as *WiFi* speed. For rock-solid stability in your *WiFi* connections, *WiFi Stabilizer* filters out wireless interference, so you'll always enjoy the fastest possible speeds. *WiFi SmartConnect* automatically selects the best *WiFi* source, so your laptop connects seamlessly to the best *WiFi* signal and known mobile hotspots. *TaskFirst* gives you control over which task you'd like to prioritize your network speed to – preventing others apps from competing network capacity with your focusing task.

## USB-C Easy Charge (5V-20V)

*USB-C Easy Charge* support means that your laptop can be used with a wide range of standard *USB-C* chargers. You can enjoy ultrafast charging with any *PD (Power Delivery)* certified charger, including the supplied fast-charge adapter, or juice up your device on the go with airline chargers, portable chargers or power banks! It's incredibly convenient when there are no wall sockets available, such as on flights or in vehicles.

# Seamless multitasking experience

## ScreenPad

The new ScreenPad™ with ScreenXpert 2.0 upgrades the traditional laptop experience, adding an interactive secondary touchscreen that enhances your productivity with more possibilities. Its intuitive smartphone-like interface lets you easily manage tasks and create your own seamless multitasking workflow. There's a series of handy ASUS utility apps to boost productivity including Phone Call, Task Group, Handwriting, and so on. There are also useful quick controls that improve the interactions between the main display and ScreenPad: for example, you can now launch a video or chat box — or many other apps — onto ScreenPad to take advantage of the extra space wherever you are, and without interrupting your work on the main display.

## ScreenXpert 3 on ASUS PCs

The ScreenXpert 3 — which you can download from Microsoft store or find in your PC's Start menu — helps you to manage app windows across displays connected to your ASUS PC\*. It also lets you turn your camera or microphone on and off and check their status on your PC's screen without using the keyboard. ScreenXpert 3 for ASUS PCs puts you in full control of your workflow!

## ScreenPad Plus Now with ScreenXpert 3

Designed to give you the ultimate edge in workflow efficiency, the unique full-width ASUS ScreenPad™ Plus secondary touchscreen works seamlessly with the main display. And with the new ScreenXpert 3, it's now even easier to multitask and organize work via intuitive controls that allow you to manage app windows across all your main display, ScreenPad Plus and external displays. You can now create a larger, more productive workspace whenever and wherever you want.

## GlideX

GlideX is a cross-device screen-sharing solution. Using wired or wireless connections<sup>1</sup>, you can create a bigger and better work or play space. GlideX optimizes your workflow in the blink of an eye!

### Screen Extend

Turn your tablet into a secondary display for more screen space on the go, giving you dual-display convenience anywhere!

### Screen Mirror

With Screen Mirror you can project your device's screen to a PC for easier keyboard input and more screen space. Use your Android or iOS apps via Windows in the productive space of your PC!

your mobile device to subscribe

<sup>1</sup> Terms and Conditions apply: <https://www.asus.com/contents/GlideX-Terms-and-Conditions>  
<sup>2</sup> The Link to MyASUS mobile app is supported on mobile devices running Android 8.0 & iOS 13.0 or later.  
<sup>3</sup> URL Share requires the Microsoft Edge browser.  
<sup>4</sup> The Remote Desktop is supported in Windows 10 or Windows 11 Pro with a local user account.

## Link to MyASUS

The Link to MyASUS feature is a handy tool that's part of the MyASUS app<sup>2</sup>. It seamlessly integrates your ASUS PC with your mobile devices, boosting your productivity and allowing easier multitasking. A series of features enables you to transfer files or links wirelessly between devices, or access local PC files remotely from your phone. Link to MyASUS simplifies your life!

### File Transfer

Simply tap or drag to share files between ASUS PCs, or between your PC and mobile devices in the blink of an eye. You can now send a photo or video you've just captured from your phone to your PC – and it's much quicker than using Bluetooth<sup>3</sup>!

### URL Share

Simply tap the share icon in your browser and click MyASUS. The link to the webpage you're browsing on your PC will be instantly sent to your mobile device — where it will open automatically for seamless on-the-go convenience<sup>2</sup>.

### Hands-Free Phone Call

Make and take phone calls, which can be routed through your PC's speakers and microphone. You can also access your phone's contact book on your PC, so you can search for contacts and call them directly. There's no need to dig out your phone from your bag or pocket!

### Shared Cam

Shared Cam lets you use your phone's camera as your PC's webcam for video calls in real-time. Just select "Link to MyASUS – Shared Cam" as the video source in your PC video-conferencing app, and enjoy easy and seamless webcam sharing.

### Remote Access

If you're working away from the office, you can easily access your workfiles remotely from your mobile device, anywhere, anytime, with no hassle. Use your mobile device to remotely access files stored on your ASUS PC, and use your PC as a personal cloud replacement and gain access anywhere and anytime<sup>4</sup>.

<sup>2</sup> The Link to MyASUS mobile app is supported on mobile devices running Android 8.0 & iOS 13.0 or later.  
<sup>3</sup> URL Share requires the Microsoft Edge browser.  
<sup>4</sup> The Remote Desktop is supported in Windows 10 or Windows 11 Pro with a local user account.  
<sup>5</sup> Features may be varied by different models.

# Worry-free Support

## ASUS AppDeals

Once you're part of the ASUS family, you can enjoy discounts on premium apps and ASUS-exclusive deals via AppDeals. As part of a select few, you get to enjoy reduced prices for many of the most popular apps out there. Be sure to check in often! We're constantly adding new exclusive deals so you can save money on your favorite apps.

## System Diagnosis

The System Diagnosis tool helps you identify any problems that are encountered, reports the sources of the issues, and provides instant suggestions. It also helps our customer service representatives to identify problems quickly and accurately if your device needs repairing.

# Customize your workflow

## MyASUS

MyASUS provides easy access to ASUS apps\* that are designed to help you maintain your system, update your software, optimize your PC performance, and contact ASUS for after-sales service and support. You can also access ASUS Promotion for a huge range of popular app downloads and exclusive offers.

### TaskFirst

When you have limited Internet connection speed and needs to prioritize a certain task, such as gaming or downloading a file, TaskFirst allows you to choose and prioritize bandwidth for that task.

### Battery Health Charging

Overcharging a laptop battery may degrade the battery, resulting in a shorter lifespan. It can also cause swelling due to oxidation. In Battery Health Charging, you can choose to limit charges to 60%, 80% or 100% to prolong battery lifespan and reduce the chance of damage from swelling.

### WiFi SmartConnect

When moving between different rooms with your laptop, the WiFi signal can become unstable. With WiFi SmartConnect, your laptop automatically connects to the router with the best signal in your current environment. It also memorizes the mobile hotspots you connect to and prioritizes connections to them when they're detected.

### Fan Profile

Noise from computer CPU cooling fans can be annoying, especially in quiet places like the bedroom or the library. Fan profile gives you the flexibility to operate the fan at maximum speed when processing heavy tasks, and change to a lower fan speed when working in a quiet environment. You can also easily switch between the modes by pressing the Fn + F hotkey combination.

### ASUS AI Noise-Canceling Technology

ASUS AI Noise-Canceling Technology includes an AI Noise-Canceling Mic and AI Noise-Canceling Speaker. The AI Noise-Canceling Mic suppresses ambient noise around you - Single-presenter conference call mode focuses the voice of the person in front of the PC; Multi-presenter mode makes sure that multiple voices from varying directions and distances can be heard clearly. The AI Noise-Canceling Speaker filters out all sound except human voices from the laptop speaker, so you can hear others clearly.

### ASUS Tru2Life Video

ASUS Tru2Life Video is an exclusive video enhancement technology that's similar to that found in high-end TVs. It uses intelligent software algorithms to optimize the brightness and sharpness of every video frame, improving contrast by up to 200%. As a result, video imagery looks more colorful, more vivid and sharper with incredible contrast.

\* Software included may vary by model.

## ProArt Creator Hub

Harness your creative potential with the ProArt Creator Hub app. The app provides a unified experience across all your connected ProArt or creator devices<sup>1</sup> so you can easily calibrate colors, adjust settings, monitor performance, and optimize your workflows.

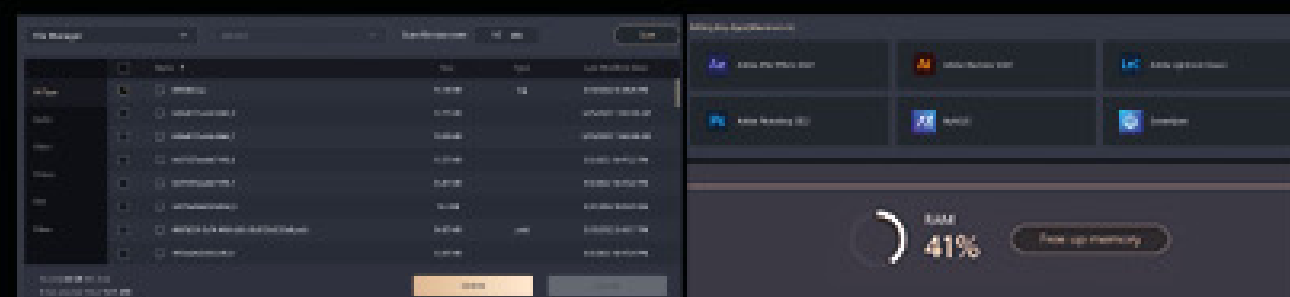

### Dashboard

A quick glance at the dashboard gives you an overview of all your connected devices. Keep track of system parameters, including processor load, memory usage, or fan status. With heat dissipation so crucial to unleashing your creator PC's full performance, ProArt Creator Hub includes four Fan Profile settings<sup>2</sup> that are tailored to suit different scenarios. Use Full Speed mode when rendering heavy graphics for extreme efficiency, or switch to Whisper mode for distraction-free silence.

## Performance Optimization

Easily manage your PC's resources and boost performance in an instant with ProArt Creator Hub's Performance Optimization features! These handy tools include Resource Monitor, App Power Priority, and Clean Files.

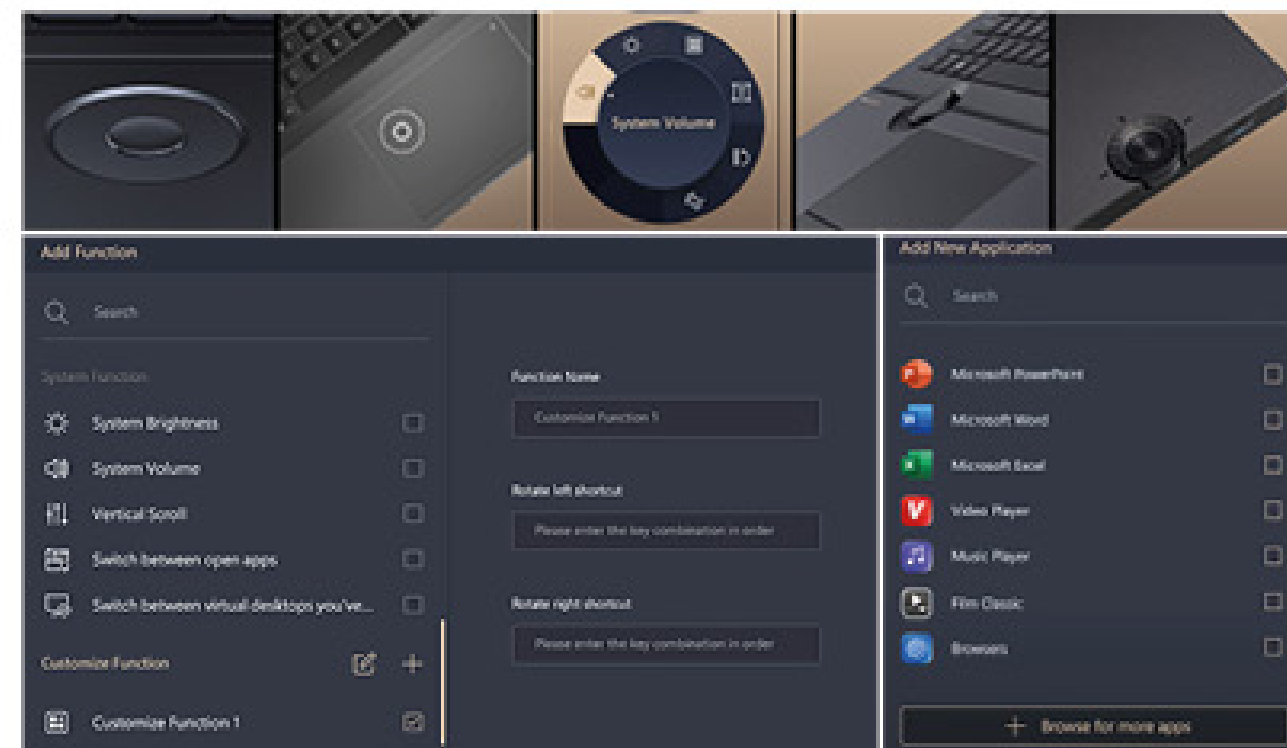

Resource Monitor lets you manage all currently running processes on your device, while App Power Priority prioritizes power usage for your key applications. Clean Files helps you find and delete unwanted files on your PC for optimum performance.

## Control Settings – ASUS Dial<sup>3</sup>

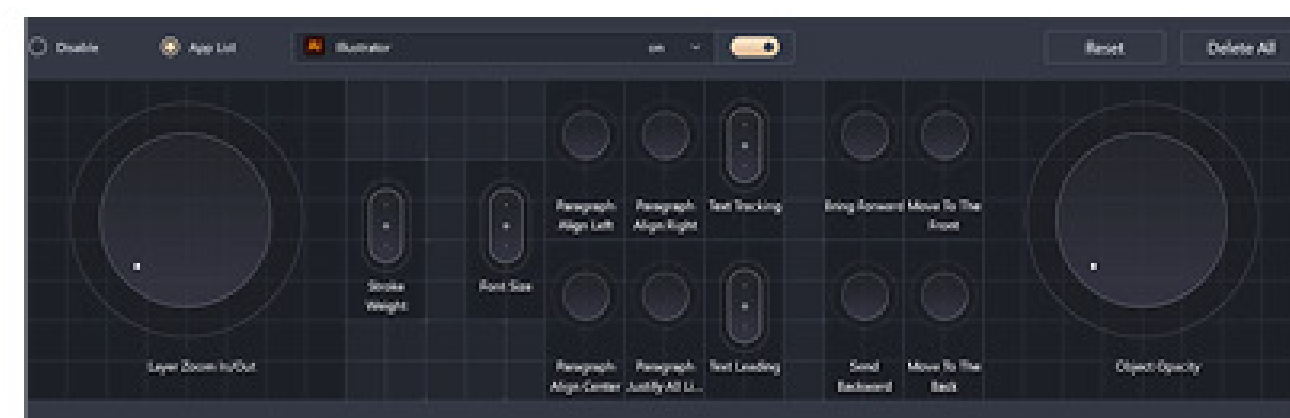

Our creator-focused products, such as ProArt Studiobook, Zenbook Pro, Vivobook Pro, and ProArt devices are equipped with the groundbreaking ASUS Dial<sup>3</sup>. This is a precision-engineered rotary control that gives intuitive fingertip control over app parameters and values.

You can customize your ASUS Dial in the Control Settings menu to work well with Adobe® apps including Photoshop®, Lightroom® Classic, Premiere® Pro, After Effects® and Illustrator®. We've also added support for Microsoft Office apps, entertainment apps, and browsers for a more intuitive and personalized experience.

## Control Settings – ASUS Control Panel

You can customize ASUS Control Panel to work with Adobe® apps including Photoshop®, Lightroom® Classic, Premiere® Pro, After Effects® and Illustrator® and change any function on the panel settings depending on your needs to enhance efficiency.

1. Functionality may vary by product.  
2. Fan Profile settings included are tailored for the performance and needs of each product and may vary by model.  
3. Please refer to individual product information for ASUS Dial availability.

# ASUS Zenbook 17 Fold OLED

## Unfold the incredible

(UX9702)

Thin and light

12th Gen  
Intel® Core™ i7  
processor17.3" 2.5K foldable  
OLED displayLong-lasting 75Wh  
high capacity battery

Zenbook 17 Fold OLED leads the world with its amazing 17.3" Foldable OLED (FOLED) touchscreen that folds down instantly to a compact 12.5" size, making it smaller than a sheet of photocopier paper for easy carrying. The color-accurate 2.5K slim-bezel NanoEdge Dolby Vision screen is also PANTONE® Validated with TÜV Rheinland-certified low blue-light levels. Its ingenious multiple user modes are limited only by your imagination, and the detachable ASUS ErgoSense Bluetooth® keyboard and touchpad turns it into a powerful fully-featured laptop with a 12th Gen Intel® Core™ processor and a stunning Harman Kardon-certified quad-speaker Dolby Atmos® audio system. The innovative camera system includes a 5 MP AI webcam, a HD IR camera for fast face login, and a color sensor for automatic brightness and color temperature control.

Microsoft Edge makes it easier.

## One Device, Many Modes

From its exclusive color and high-tech materials all the way to its supremely elegant finish, Zenbook 17 Fold OLED redefines the meaning of premium. As you turn the laptop around, the new ASUS monogram on dark blue glass catches the light in a fascinating way. The ultra-compact chassis of Zenbook 17 Fold OLED is merely 8.7 mm thin when unfolded, and 17.4 mm thin when folded. It weighs 1.5 kg without its keyboard and 1.8 kg with it. Its ingenious versatile modes with wide viewing angles: Laptop Mode (with virtual or Bluetooth® Keyboard), Desktop Mode, Reader Mode, Tablet Mode, Extended Mode, are limited only by your imagination, and the detachable Bluetooth® keyboard turns it into a powerful fully-featured laptop.

## Two Sizes, One Device

The groundbreaking Intel® Evo™-certified Zenbook 17 Fold OLED laptop gives you a laptop experience that's unlike anything you've ever seen before. Unfold it for a big and beautiful 17.3" foldable OLED NanoEdge touchscreen that puts it in a class of its own. When folded fully closed along the precision-engineered 180° hinge, and hey presto! You're now holding a compact 12.5" laptop that's smaller than a sheet of photocopier paper.

## A Visual Marvel

A foldable 4:3 17.3" touchscreen sounds like science fiction, but it's now a reality! This modern marvel uses OLED technology, with all the benefits that brings — including 0.2 ms response time, 60 Hz refresh rate, 1.07 billion colors, PANTONE® Validated for accurate colors, an ultra-vivid 100% DCI-P3 color gamut, ultra-realistic HDR images, and 70%-lower blue-light levels than an LCD display, with TÜV Rheinland eye-care certification. When folded, each 12.5" half of the display delivers 3:2 pin-sharp images. It's an incredibly versatile display.

## Effortless Performance, Easy Convenience

Effortless performance is ensured by the latest 12th Gen Intel® Core™ i7 processor, Intel® Iris® X graphics, up to 16 GB RAM and a fast 1 TB PCIe® SSD. The latest WiFi 6E (802.11ax) gives you gigabit-class wireless connections, and it comes with the 75 Wh battery for longer battery life. It is born for the fast-paced lifestyle.

## ASUS Zenbook 17 Fold OLED (UX9702)

- Windows 11 Home
- 12th Gen Intel® Core™ i7-1250U Processor
- Intel® Iris® X graphics
- 1TB M.2 NVMe™ PCIe® 4.0 Performance SSD
- 16GB LPDDR5
- 17.3" OLED 2.5K (2560 x 1920 FOLED) 4:3, Touch screen
- WiFi 6E (802.11ax)
- Pantone validated, 100% DCI-P3
- Dual ultrafast Thunderbolt™ 4 ports
- Soft Keyboard, 1.4mm Key-travel, Touchpad
- 2 year international warranty

## Raise the limits

The tilt mechanism has been completely redesigned to create AAS Ultra, with a precision-engineered mechanism that raises the rear of ScreenPad Plus by up to 20 mm, tilting it by 12° when the laptop is opened. This positions ScreenPad Plus at the ideal viewing angle for easy cross-screen operation with the main touchscreen. It also enhances cooling by allowing 38% more airflow than the previous generation. This in turn reduces the laptop's surface temperature by up to 7°C, increasing both comfort and CPU performance.

## World's first 16:10 14.5" 120 Hz HDR OLED display

Built for creative excellence, Zenbook Pro 14 Duo OLED delivers superlative visuals by combining the world's first 14.5-inch 2.8K 120 Hz OLED NanoEdge touchscreen<sup>2,3</sup> with the next-generation ScreenPad Plus. With an expansive 16:10 aspect ratio, the main touchscreen is Dolby Vision certified<sup>4</sup> and PANTONE Validated to ensure accurate color rendering. Its cinema-grade DCI-P3 color gamut delivers ultra-vivid colors, and the 120 Hz refresh rate and 0.2 ms response time make even the fastest action scenes look super-smooth.

## Next-generation ScreenPad Plus

The next-generation ScreenPad Plus is a 12.7-inch, full-width secondary touchscreen with support for the latest high-precision styluses, such as ASUS Pen 2.0. We've re-engineered the tilt mechanism to create AAS Ultra, which increases the angle of tilt for comfortable touch operation and reduces the visual separation between ScreenPad Plus and the main touchscreen. The result is seamless cross-screen operation, enhancing your creative workflow even further.

Ultra design

Get ready to meet the seriously powerful Zenbook Pro 14 Duo OLED, an Intel® Evo™-certified powerhouse that lets you turn up your creative powers to the max. The flagship Intel CPU and creator-grade NVIDIA® GPU are cooled for extreme performance by ASUS IceCool Plus technology, aided by the brand-new AAS Ultra mechanism, which vents the chassis and also tilts the next-generation ScreenPad™ Plus secondary touchscreen to a comfortable angle for a seamless and immersive visual experience. For studio-class visuals, the world-leading 2.8K OLED HDR 16:10 main touchscreen has a smooth 120 Hz refresh rate. Zenbook Pro 14 Duo OLED puts its rivals in the shade, making it the ultimate compact OLED laptop for the discerning creator.

## Take it to the max

Its flagship 12<sup>th</sup> Gen Intel Core i7-12700H processor delivers extreme performance for every creative task, and it's a perfect match for the studio-grade NVIDIA GeForce RTX 3050 Ti graphics. To unleash the full capabilities of this powerful combination, the ASUS IceCool Plus cooling system works with the AAS Ultra to keep everything cool and unthrottled, even at the maximum 85-watt combined TDP.

# ASUS Zenbook Pro 15 Duo OLED

## The laptop of tomorrow

(UX582)

Tilting ScreenPad  
PlusIntel® Core™ i9  
processorup to GeForce  
RTX™ 3070 Ti GPU4K OLED HDR  
touchscreen

Zenbook Pro 15 Duo OLED lets you get things done in style: calmly, efficiently, and with zero fuss. It's your powerful and elegant next-level companion for on-the-go productivity and creativity, featuring an amazing 4K OLED HDR touchscreen. It also includes the brand-new tilting ASUS ScreenPad™ Plus secondary 4K display that offers effortless ergonomics and seamless workflows. Powered by up to an Intel® Core™ i9 eight-core processor, Zenbook Pro 15 Duo OLED brings you all the benefits of tomorrow's technology, today.

Microsoft Edge makes it easier.

## Two seamless displays

Zenbook Pro 15 Duo OLED also includes the new tilting ScreenPad Plus, a secondary touchscreen that automatically tilts up by 9.5°, creating an angle of 144.5° between the main display and ScreenPad Plus for more comfortable viewing. You can enjoy seamless visuals across both displays, with easy multitasking thanks to the built-in ScreenPad Plus-optimized apps that enhance your workflow.

## Flagship performance

Zenbook Pro 15 Duo OLED is a real powerhouse when it comes to performance. It's powered by up to an Intel® Core™ i9 fourteen-core processor with up to 32GB of memory, with an ultrafast PCIe® SSD to ensure fast boot times and rapid app loads. With this ultrapowerful combination, Zenbook Pro 15 Duo OLED takes professional-quality tasks in its stride, such as multi-layer photo or video editing, music production, or even 3D graphics rendering.

## Professional-grade graphics

The professional-grade NVIDIA GeForce RTX 3070 Ti Laptop GPU delivers fantastic performance. Advanced RTX features like hardware accelerated ray tracing ensure stunning visuals, while exclusive AI assistance helps with repetitive tasks for faster content creation.

## 4K OLED HDR, Ultraslim bezels

Zenbook Pro 15 Duo OLED gives you a superbly immersive viewing experience, with a brilliant 4K OLED HDR NanoEdge display that delivers ultra-vivid colors and deep blacks. Its cinema-grade 100% DCI-P3 color gamut and Delta-E <2 color accuracy make it a superb all-rounder for professional creation, and it's also PANTONE® Validated for professional-grade color accuracy and TÜV Rheinland-certified for eye care.

# ASUS Zenbook 14 Duo

## The laptop of tomorrow

(UX482)

Tilting ScreenPad Plus

Intel® Core™ i7 processor

Long Battery Life

4-sided NanoEdge Display

Zenbook 14 Duo lets you get things done in style, calmly, efficiently, and with zero fuss. It's your powerful and elegant next-level companion for on-the-go productivity and creativity, featuring the brand-new tilting ScreenPad™ Plus secondary display that offers effortless ergonomics and seamless workflows. Powered by the latest 11th Gen Intel® Core™ processors, Zenbook 14 Duo brings you all the benefits of tomorrow's technology, today.

## Heavyweight performance

Zenbook 14 Duo is no lightweight when it comes to performance. It harnesses the power of the latest 11th Generation Intel® Core™ processors combined with plenty of fast RAM, plus Intel Iris® X® and discrete NVIDIA® graphics. There's also an ultrafast PCIe® SSD to ensure fast boot times and rapid app loads.

## Work more productively on the go

We've slimmed down the new Zenbook 14 Duo so it's 3 mm thinner than the previous generation: this is made possible by the tilting ScreenPad Plus design, which reduces the need for internal cooling airflow. Battery life has also been boosted to an amazing 17 hours for all-day productivity. The precision-engineered ErgoLift hinge tilts the keyboard by 4.5° for ergonomic, fatigue-free typing.

## NanoEdge display with immersive visuals

Zenbook 14 Duo gives you a superbly immersive viewing experience, with a four-sided frameless NanoEdge display that's super-bright — up to 400 nits — and has ultraslim bezels for an expansive 93% screen-to-body ratio. It's also PANTONE® Validated for professional-grade color accuracy, and TÜV Rheinland-certified for low blue-light emissions, so it's comfortable to use for long creative sessions.

## ASUS Zenbook 14X OLED SPACE EDITION

(UX5401)

3.5" OLED  
ZenVisionUS Space-grade  
Durability2.8K OLED HDR  
displayComprehensive  
I/O ports

Zenbook 14X OLED Space Edition is a very special, out-of-this-world laptop that commemorates the 25th anniversary of the first ASUS laptop sent into space. It's a prestigious special-edition design featuring stunning space-themed graphics on the lid and keyboard, and there's also a futuristic 3.5-inch OLED companion ZenVision display on the lid that shows personalized notifications, animations or text. For stellar visuals, it has a 16:10 2.8K OLED NanoEdge PANTONE® Validated 14-inch display with an unbelievable 92% screen-to-body ratio and TÜV Rheinland-certified eye care. Get ready to explore a new vision, and start your voyage of cosmic discovery and exploration!

Microsoft Edge makes it easier.

### Future Vision - 3.5" OLED ZenVision

ZenVision is a 3.5-inch OLED monochrome display located on the lid of the laptop. Space Theme mode displays an animated theme, while Smart Notifications can show time, date or battery status. And you can display your own custom text message too! ZenVision gives you the opportunity to connect with those around you and give them a window into your personality.

### Tough enough for outer space

Zenbook 14X OLED Space Edition is designed to withstand the punishing demands of space travel. It complies with the ultra-tough US Space Systems Command Standard SMC-5-016A testing protocols, and it's torture-tested to space-grade standards for resistance to extreme vibration and high/low operational temperatures. Additionally, it meets the US Department of Defense's MIL-STD 810H durability standards.

### A cosmic visual experience!

Enjoy out-of-this-world visuals with Zenbook 14X OLED Space Edition's brilliant 2.8K OLED HDR NanoEdge touchscreen, with its expansive 16:10 aspect ratio that lets you see more of web pages and documents than a standard 16:9 display. The cinema-grade 100% DCI-P3 color gamut and PANTONE® Validated color accuracy deliver ultra-vivid and ultra-accurate colors, and the DisplayHDR™ True Black 500 certification means you see true blacks for enhanced realism. It's also TÜV-certified for low blue-light emissions<sup>7</sup>, ensuring your eyes are cared for.

### Light-speed connections

Connect effortlessly to the latest high-speed peripherals with Zenbook 14X OLED Space Edition's two ultrafast Thunderbolt™ 4 USB-C® ports, which also support fast charging, 4K UHD external displays and up to 40 Gbps<sup>11</sup> data-transfer rates. There's also an HDMI port, a USB 3.2 Gen 2 Type-A port, and a microSD card reader. A convenient audio combo jack takes care of all Earth-bound communications and audio I/O.

### ASUS ZenBook 14X OLED Space Edition (UX5401ZAS)

- Windows 11 Home
- Intel® Core™ i7-12700H Processor
- Intel® Iris® X Graphics

## ASUS Zenbook S 13 Flip OLED Incredible Comes From 360° of Lightness

(UP5302)

2.8K OLED HDR  
touchscreen

Bigger 16:10  
workspace

Ultrafast  
WiFi 6E\*

360°  
ErgoLift hinge

The ultra-lightweight Zenbook S 13 Flip OLED is an elegant and powerful companion for those with busy lifestyles, featuring a versatile 360° ErgoLift hinge, a long-lasting battery and superb connectivity. Your eyes will appreciate the brilliant 16:10 2.8K OLED NanoEdge touchscreen, which is PANTONE® Validated for color fidelity and has a cinema-grade 100% DCI-P3 color gamut. The powerful 12th Gen Intel® Core™ processor and Intel Iris® X graphics give it superb all-round performance, and the Harman Kardon-certified Dolby Atmos® audio system provides immersive multi-dimensional audio. With its all-new modern design and fresh new colors, Zenbook S 13 Flip OLED is true perfection in a laptop.

Microsoft Edge makes it easier.

### Brilliant visuals, slim bezels

The brilliant slim-bezel NanoEdge OLED touchscreen on Zenbook S 13 Flip OLED has an expansive 16:10 aspect ratio for a bigger workspace. It delivers incredibly vivid and detailed visuals, with industry-standard PANTONE® Validated color fidelity. It's also TÜV Rheinland-certified for eye care, so you'll never tire of looking at this stunning display, even during the longest viewing sessions. The touchscreen supports a high-precision MPP 2.0 stylus — such as the ASUS Pen 2.0 — with 4096 pressure levels, allowing intuitive and natural input for notes, sketches or drawing.

### Take on any task

Powered by the latest 12th Generation Intel® Core™ processors, up to 32GB RAM and Intel® Iris® X integrated graphics, Zenbook S 13 Flip OLED has the performance to handle any task with ease. Its slim and lightweight design means you can enjoy no-compromise productivity, whether you're in the office, at home or on the road. Zenbook S 13 Flip OLED can also deliver premium mobile performance, superb visuals and outstanding power efficiency. You can rely on Zenbook S 13 Flip OLED to make light work of even the toughest days.

### Lightweight, thin and tough

Zenbook S 13 Flip OLED is effortlessly portable and endlessly versatile. The magnesium-aluminum alloy unibody design makes Zenbook S 13 Flip OLED robust, durable and lightweight. Thanks to a sleek and compact design that's just 1.1 kg light and 14.9 mm thin. It's the perfect take-anywhere laptop for on-the-go productivity and creativity.

Ultrastar WiFi 6E

360°  
ErgoLift hinge

Add a touch of brilliance to your life with Zenbook 14 Flip OLED, the slim, light and ultra-versatile convertible laptop with a gorgeous 16:10 4K OLED HDR NanoEdge touchscreen that gives you the deepest blacks and the most vivid colors. Powered by the latest 12th Gen Intel® Core™ processors. The precision-engineered 360° ErgoLift hinge lets you work or play in whatever mode you wish — laptop, stand, tent, tablet, or anything in between. With Zenbook 14 Flip OLED your productivity can really shine, anywhere.

Microsoft Edge makes it easier.

## Bring everything to life in vivid color

Everything comes to life with Zenbook 14 Flip OLED's amazing up to 4K OLED HDR NanoEdge touchscreen, which has a 16:10 aspect ratio to give you a bigger visual workspace than a standard 16:9 display. It has a cinema-grade 100% DCI-P3 color gamut and is PANTONE® Validated for ultra-vivid, ultra-accurate colors. OLED technology gives you true blacks for enhanced realism, and it cares for your eyes with TÜV-certified for low blue-light emissions.

## Superb all-round performance

Powered by the latest 12th Generation Intel® Core™ processors, up to 16GB RAM and Intel® Iris® X® integrated graphics, Zenbook 14 Flip OLED gives all the all-round performance you need for smooth multitasking and effortless productivity. Ultrafast PCIe® 4.0 x 4 SSD storage and gigabit-class Zenbook 14 Flip OLED Intel WiFi 6E (802.11ax) mean you won't be waiting for apps or websites to load, either!

## Thoughtful design

We've made the user experience on Zenbook 14 Flip OLED even better with some thoughtful design features. For easy data entry, there's the ASUS NumberPad 2.0 that integrates a full-size LED-illuminated numeric keypad into the touchpad. There's secure fingerprint login, too, with a handy sensor on the power button.

## Flexible performance, effortless mobility

FHD OLED  
touchscreen

Ultrathin and  
ultralight

360° ErgoLift hinge

4096-pressure-level  
stylus support

The distinctively elegant Zenbook 13 Flip OLED has an all-new design that combines ultimate portability with supreme versatility. Its sleek NanoEdge display and 360° ErgoLift hinge make Zenbook 13 Flip OLED extra compact, and the super-slim 13.9 mm chassis houses a wide range of I/O ports for easy connectivity. Its Intel® Core™ processor gives you effortless performance for on-the-go productivity and visual creativity. Zenbook 13 Flip OLED is the versatile and powerful all-rounder that's your perfect business or creative partner.

Microsoft Edge makes it easier.

## Flex with style

The 360° ErgoLift hinge on Zenbook 13 Flip OLED has a silky-smooth, stapless action that holds the display securely at any angle. The versatility of Zenbook 13 Flip OLED allows you to work or play in any mode you choose: laptop, tent, stand or tablet. The ErgoLift hinge is also torture-tested to ensure maximum reliability for total peace of mind.

## Thin, light, and fully connectable

Zenbook 13 Flip OLED is designed for effortless portability. It's surprisingly light — just 1.3kg — and a mere 13.9mm thin, so your on-the-go productivity and creativity aren't hampered. Even with its super-slim design, Zenbook 13 Flip OLED doesn't skimp on I/O capabilities: with HDMI, USB Type-A and two Thunderbolt™ 4 USB-C® ports, it's one of the thinnest convertible laptops around with such an impressive list of ports!

## NanoEdge touchscreen with high-sensitivity stylus support

Artists, photographers and designers will love what the NanoEdge display combined with the optional ASUS Pen can offer. The smooth-as-silk touchscreen supports the 4096 levels of pressure sensitivity that the ASUS Pen offers, providing an upgraded experience that makes Zenbook Flip 13 your perfect choice for casual creativity, notetaking and intuitive editing in any supported app.

## Extreme battery life

Zenbook 13 Flip OLED uses a high-capacity battery that won't let you down, however long and demanding your working day is. Its fast-charge technology lets you recharge to 60% capacity in as little as 49 minutes, so you can be up and running quicker than ever. ASUS USB-C Easy Charge lets you use a wide range of standard USB-C chargers for convenient charging on the go.

## ASUS Zenbook 13 Flip OLED (UX363EA)

- Windows 11 Home

For creators, the display needs to enhance the finest nuances of a creation, and the 2.8K OLED HDR Dolby Vision display on Vivobook Pro 15X OLED certainly delivers. Its three-sided NanoEdge design has ultra-slim bezels, and the 120 Hz refresh rate on the 2.8K OLED display gives it super-smooth, natural-looking visuals. This super-bright 600-nit OLED display is DisplayHDR™ True Black 600 certified for deep blacks and an ultra-high contrast ratio, PANTONE® Validated for professional-grade color accuracy, and TÜV Rheinland certified for eye-friendly low blue-light emissions and flicker-free operation. It's a display that will show your creations in their very best light.

## Fire up your creativity

Whatever your creative needs, Vivobook Pro 15X OLED delivers. It excels at everything from casual creation to serious 3D rendering, with every component selected to give you the optimum performance for the task at hand. The latest AMD Ryzen™ 6000 Series Processor, a creator-grade NVIDIA GeForce RTX GPU, 1TB upgradable SSDs available, and up to 32 GB of fast RAM open the door to a new level of creativity.

## Cool and quiet

Creativity thrives in a calm environment, so Vivobook Pro 15X OLED features an advanced ASUS IceCool Pro cooling system that minimizes noise while maximizing overall system performance. The dual-fan design has four external exhaust vents at the sides and rear of the laptop for rapidly and quietly dissipating heat to the exterior, and there are three fan modes to choose from that let you choose the ideal acoustic balance for the task at hand.

## 99% bacterial inhibition. Your health safeguarded.

The surface of any laptop harbors thousands of potentially harmful bacteria. To keep your laptop hygienic, it's protected by ASUS Antibacterial Guard — a special surface treatment that keeps the bugs at bay. In fact, Antibacterial Guard has been scientifically proven to inhibit the growth of bacteria by more than 99% over a 24-hour period, ensuring the surfaces of your laptop clean and sanitary for longer and reducing the spread of potentially harmful bacteria via contact.

## See Your True Colors

(M3500)

Up to 15.6" FHD OLED NanoEdge display

Up to AMD Ryzen™ 9 5900HX mobile processor

Up to NVIDIA® GeForce® RTX3050 Laptop GPU

High-capacity battery with long battery life

It's vivid. It's vibrant. It's Vivobook Pro 15 OLED, and it shows the true colors of your world. With its stunning 15.6-inch NanoEdge FHD OLED display and awe-inspiring Harman Kardon-certified audio, Vivobook Pro 15 OLED immerses you in whatever you're doing, whether it's work or play. Powered by the latest AMD Ryzen™ 5000 H Series Mobile processors with NVIDIA® GeForce® RTX3050 graphics and a dual-fan cooling system, and featuring ultrafast Wi-Fi 6E, the ultra-stylish Vivobook Pro 15 OLED lets you achieve your true potential.

Microsoft Edge makes it easier.

## Unleash the possibilities

Vivobook Pro 15 OLED is ready and waiting to take you on your journey of discovery. Whatever you need to do — browse, create or play — the AMD Ryzen™ 5000 H Series mobile processor with NVIDIA® GeForce® RTX3050 graphics, up to 16GB memory and a 1TB PCIe® SSD give you all the horsepower you need to realize your visual creativity. GeForce® RTX GPUs provide hardware-accelerated ray tracing and AI capabilities for creators who need next-level performance. Render quicker, broadcast clearer, and edit videos better with NVIDIA® GPUs in Studio laptops and desktops.

## Discover a new vision of the world

Expand your vision beyond the borders and immerse yourself in Vivobook Pro 15 OLED's amazing 16:9 aspect-ratio display. This FHD OLED NanoEdge display is super-bright — up to 600 nits — and has an 84% screen-to-body ratio, along with a 100% DCI-P3 color gamut for ultra-vivid colors. It's also PANTONE® Validated for professional-grade color accuracy and TÜV Rheinland-certified for low blue-light emissions. Let Vivobook Pro 15 OLED guide your creative journey, with a fresh new visual experience.

## Design to Impress

Forget ordinary, embrace Vivobook. The unique 3D ASUS logo, with its anodized chevron pattern and tactile texture, adds excitement even before you open the lid. Explore further, and see how the expressive design continues inside, where a warning-striped Enter key takes center stage.

## A faster connection to the future

Step away from your desk and into the future — whether it's at home, in a downtown café, or at the airport. Your workspace is wherever you want it to be. Vivobook Pro 15 OLED is equipped with Wi-Fi 6E (802.11ax), which delivers superfast networking speeds for faster large file transfers, responsive online gaming, and super-smooth video chats. It's also enhanced with exclusive ASUS WiFi Master Premium technology: this includes ASUS WiFi SmartConnect that automatically selects the best Wi-Fi source, so your laptop connects seamlessly to the best Wi-Fi signal and known mobile hotspots.

Dual storage

Up to 40%  
performance boost

With standout colors and a color-blocking Enter key, ASUS Vivobook 15 OLED adds flair and dynamism to daily computing. With its Intel® Core™ i7 processor and the latest NVIDIA GeForce GPU, Vivobook 15 OLED provides the power you need to get things done. It also features a dual-storage design that combines the fast data speeds of an SSD with the large capacities of an HDD, giving you the best of both worlds in order to boost productivity.

Microsoft Edge makes it easier.

## Express the true you

Vivobook 15 OLED with a metal lid is about pushing boundaries and breaking new ground, and its bold look makes a statement. Choose between uncompromising Indie Black, futuristic Transparent Silver, and if you're really daring, go for the adventurous Hearty Gold.

## The ultimate performance boost — up to 40%!

Powered by the latest Generation Intel® Core i7 processor with up to 16GB memory and the latest NVIDIA GeForce GPU, Vivobook 15 OLED offers the performance you need to get you through any task. Using ASUS Intelligent Performance Technology in Performance mode, an ASUS laptop with an 11th Gen Intel® processor can enjoy a performance boost of up to 40% compared to an ordinary 15-watt performance. Even in the default Balanced mode, performance can be up to 30% better!

## Say Yellow! to the world

The bold, expressive colors continues under the lid. The eye catching finishes are complemented on the inside by a color-blocking Enter key with lettering and borders in bright yellow — a color that defines Gen Z.

## A better view with NanoEdge

The thin-bezel NanoEdge display with 84% screen-to-body ratio provides an expansive and immersive viewing experience by enabling a larger screen in smaller frame. The Full HD display also offers 178° wide viewing angles and exceptional color reproduction for truly vivid visuals.

## Wow the World with Ultimate Power

(K6602)

Intel® Core™ i9-11900H processor

NVIDIA® GeForce® RTX™ 3050

NanoEdge display

MUX Switch

Lighting up your creativity is easier than ever with the powerful Vivobook Pro 16. Equipped with an Intel® Core™ H-series CPU, a dual fan, triple-vented cooling system and NVIDIA® GeForce® RTX™ 3050 graphics, it's designed to deliver maximum performance for everything creative, whether you're an artist, a vlogger, a video creator, a musician, or just someone who likes to have fun. For maximum gaming power we've included a MUX switch that unleashes the full power of the GPU. Any kind of visual creation will look its best on the fantastic WUXGA display, with its super-smooth 60 Hz refresh rate and ultra-accurate, vivid colors, and your ears will really appreciate the powerful Dolby Atmos® sound system with its multi-dimensional audio. Get creative, get Vivobook Pro 16.

Microsoft Edge makes it easier.

## Find your creative balance

Finding the balance between working on projects and pumping out the final content is easier with a fast laptop: you'll spend less time waiting for stuff, and more time making your content great. The blisteringly fast Intel® Core™ i9-11900H processor takes multitasking in its stride, no matter how short your deadlines. And there's even more performance on tap when you enable Performance mode, which can boost the CPU's power to a sustained 45 W TDP. Vivobook Pro 16 won't let you down when those amazing last-minute ideas suddenly appear!

## Switch to win

If you play the occasional game to relax, Vivobook Pro 16 gives you a clear advantage with its MUX switch. GPU sends graphics frames direct to the display without passing through the CPU, a cool trick that reduces latency and pumps up the refresh rate so you can outpace the competition for more league-topping wins!

## More creating, less waiting

Vivobook Pro 16 uses a NVIDIA® GeForce® RTX™ studio-grade GPU that lets your visual creativity really flow. It's perfect for fast video editing, entry-level 3D animation workflows and ultra-high quality visual effects. Its advanced features include ray tracing, AI acceleration and fast GDDR6 memory, so you'll spend more time producing amazing creations and less time staring at progress bars. The supplied NVIDIA Studio drivers ensure maximum graphics performance and stability, plus the assurance of perfect compatibility with over 100 of the most popular creative applications.

## World-leading 16" 60Hz laptop

For visual creations, display quality is everything, and that means precise and vivid colors, deep blacks, and luminous whites for ultra-realistic images. The HDR display on Vivobook Pro 16 ticks all the boxes: it's DisplayHDR™ True Black 600 certified with a 600-nit peak brightness, PANTONE® Validated for professional-grade color accuracy, and TÜV Rheinland certified for eye-friendly low blue-light emissions and flicker-free operation. Get ready to immerse yourself in the next level of visual excellence!

- AMD Radeon™ Graphics
- 256GB PCIe® SSD storage
- 4GB DDR4 2400MHz RAM
- 15.6" FHD 1920 x 1080, NanoEdge display with 83% screen-to-body ratio, Wide View, Anti-glare
- WiFi 5 (802.11ac, 1\*1), Bluetooth® 4.1
- SonicMaster audio
- USB-C™ for fast data transferring
- Fast charging of 60% within 49min
- Child-Resistant Keyboard with Num-Lock
- 2-year international warranty
